

Bristol County Beekeepers Association

Bristol Agricultural High School, 135 Center St, Dighton

invites all bee lovers to
our special speaker event

Tuesday, March 26
7-9 PM

featuring:

Dr. Stephen Buchmann, pollination ecologist

Author of

What a Bee Knows: Exploring the Thoughts, Memories, and Personalities of Bees

Are bees smart?

Do they sleep?
Do they dream?

How do they find
flowers?

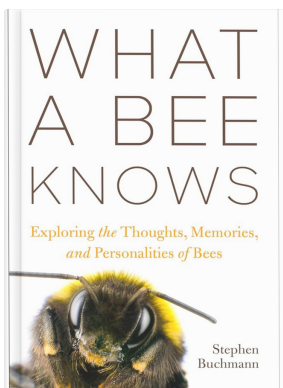

Can they learn?

Do they feel happiness?
Do they feel pain?

Do they recognize people?
Their beekeeper?

Dr. Buchmann specializes in buzz pollination and other native bee behaviors including nesting biology and mate selection. He is a frequent guest on NPR programs including All Things Considered and Science Friday. He enjoys the role of science advisor, a bee and plant wrangler for the BBC, National Geographic, and indie natural history documentary film producers and joins field cinematography teams around the world.

Dr. Buchmann was Chief Scientist for the 2013 Disney nature film "Wings of Life" narrated by Meryl Streep.

What a Bee Knows will challenge your idea of a bee's place in the world--and perhaps our own. This lively journey into a bee's mind reminds us that the world is more complex than our senses can tell us

Bring your book to be signed by the author

This event is free for members of Bristol County Beekeepers Association. Non-members are welcome to join this event for a \$10 fee or to become a member for only \$20/year.
